(Phils.), Inc. (Manulife Philippines) has grown to become one of the leading life insurance companies in the country. Manulife Philippines is a wholly-owned domestic subsidiary of Manulife Financial Corporation, among the world's largest life insurance companies by market capitalization.

China Bank

China Banking Corporation was established in 1920 and was listed on the Philippine Stock Exchange in 1965. It became the first bank in Southeast Asia to process deposit accounts on-line in 1969 and the first Philippine bank to offer phone banking in 1988. It acquired its universal banking license in 1991. China Bank provides a wide range of banking services through its more than specialized business centers, 250 branches, over 400 ATMs nationwide, and complemented by its internet and mobile banking alternative channels. With nine decades of ensuring partnerships marked by quality service to its clients, China Bank remains to be one of the most stable and profitable banks in the country.

Manulife China Bank Life Assurance Corporation (MCBL) is a strategic alliance between Manulife Philippines and China Banking Corporation (China Bank), providing a wide range of innovative insurance products and services to China Bank customers. The aim is to ensure that every client receives the best possible solution to meet his or her individual financial and insurance needs.

Since October 2007, MCBL has grown into a business of significance for both Manulife and China Bank. Buoyed by our strengthened alliance, we embark on our next phase of growth and work toward our common purpose: to make MCBL the biggest, most professional bancassurance company in the industry.

Following eight years of partnership, MCBL further strengthened its alliance with China Bank after the Bangko Sentral ng Pilipinas' grant of the license to cross-sell bancassurance products to China Bank Savings (CBS), the thrift bank arm of China Bank. The grant allows CBS to offer products that covers insurance, savings, and investment plans.

2015 also saw the introduction of three new products for the China Bank customer base: MCBL Health Choice, Credit Save, and MCBL Invest. This provides us with a stronger set of solutions that can address China Bank customers' evolving financial needs.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Manulife China Bank Life Assurance Corporation as at December 31, 2015 and 2014, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards.
